1.2.12
a Lesson in the University of The New Covenant
Theodore Cottingham, January 21, 2004
www.NewCovenant.me

1. This is the day of leaders—leadership freed in every person who will surrender to the leadership placed within them: self leadership first, in Me.

2. That's why this is the day of leadership of leaders and leadership of leaders is different than leadership of followers.

3. Followership has changed because I have changed it. I have changed it in the New Covenant. I come directly and now I teach directly, I lead directly, I speak directly, and directly I lead the leaders, who followers are in leadership, and leaders are in followership.

4. Both flowing roles, fluid in Me—My love—in wisdom and skill. That's why business is following Me. They've had more listeners to Me than many focused on My body—trying to lead them, lead them, lead them—as centuries of tradition past has taught—but not produced many leaders.

5. Today I release leadership and upon you I leadership you to lead, lead My body, lead and follow not but lead, and in your leadership follow and listen for Me and see Me and see how I both lead and follow simultaneously, concurrently, and—it is one.
